BOLIVARIAN REPUBLIC OF VENEZUELA PEOPLE'S POWER MINISTRY FOR FOREIGN RELATIONS

COMMUNIQUÉ

The Bolivarian Republic of Venezuela strongly rejects the new and serious threats by the regime of the United States of America against peace, stability and democracy in Venezuela. This is a strategy of comprehensive aggression, openly accepted and spread by the spokespersons of the supremacist Government of Washington.

In this sense, the Bolivarian Republic of Venezuela hereby denounces before the world that, the Secretary of State, Rex Tillerson, by initiating an international tour of Latin American and the Caribbean, has revealed the intentions of his Government to violently overthrow the Constitutional President of Venezuela, by encouraging a military coup. Thus, Washington confesses its aggressive intentions against the most fundamental principles of the Public International Law which govern the relations among civilized nations.

Many countries of the world have endured the long history of covert and clandestine operations, propaganda warfare, economic blockades and direct military interventions conducted by the Government of the United States of America. The senseless actions against Venezuela show once again that Donald Trump's administration has become the biggest factor of violence, discrimination and humiliation in the world.

Clearly, the main objective of the Latin American and Caribbean tour of Rex Tillerson is to increase pressures on the governments of the region to join the perverse plan of aggressions against Venezuela. In fact, in his statements he brings up the anachronistic Monroe Doctrine, an old US policy of expansion and illegal control over the countries of Our America.
