

Bolivarian Republic of Venezuela

Communiqué

The Government of the Bolivarian Republic of Venezuela strongly rejects the new attempt to impose unilateral and coercive measures against Venezuelan citizens by the Government of Canada, blatantly violating the most basic regulations of Public International Law.

It is clear that the Canadian Government's obsessive behavior against Venezuela responds to the humiliating subordination of its foreign policy to the racist and supremacist administration of Donald Trump. Facts indicate that this servile policy by Canadian authorities is the result of the government's despair in order to avoid losing benefits and preferences in trade treaties with the United States.

This pro-imperialist behavior by the Canadian government has driven it to attack Venezuela through different means during the last weeks, demonstrating a clear and laughable superiority complex, in an attempt to disregard the Venezuelan People's democratic will.

No pro-imperialist aggression, regardless of its origin, shall ever divert Bolivar's People from the path of peace, sovereignty and defense of its sacred national independence.
