Hugo Chávez People's Defense Front

Capítulo Suroeste de Canadá / Southwest Canada Chapter

Statement

The southwest chapter of Canada would like to submit a wave of congratulatory messages in the sustained continuation of the Bolivarian state. A great amount of progress has been made in consolidating the social project of the 21st century and we are confident that nobody will be able to destroy it. On Sunday, July 30th, the Venezuelan people with courage, made history by wrapping themselves in the flag of Bolivar and Chavez, and demonstrated that the fight has not been compromised, by winning the Constitutional Assembly.

How can we - the Latin Americans and Canadians who being aware of human suffering – not admire the great struggle that the citizens of Chavez have fought tenaciously and ferociously with the sword of Bolivar that shines the Constitutional Assembly? They have been able to withstand the disgraceful violent attacks from the cruel and shameless fascist hordes that kill and terrorize the people every day until finally these great people went out into the streets and yelled “Basta! We want to be free to live in peace, for we will never be quiet because to do so would be to betray the great spirit of our eternal commander”. You fought tooth and nail, with risk to your very lives, against the threats from governments, the OEA, and the European colonialists – and you triumphed. Thank you our dear Venezuelan comrades for your example and we will continue to believe in and defend the Bolivarian legacy.

The fight continues. The imperialist aggression will grow more aggressive, but the Bolivarian Revolution has repeatedly demonstrated that the blood of the eternal commander and the Bolivarian story are capable of confronting the most powerful imperial force the world has ever seen.

Greetings to everyone – students, indigenous peoples, the working and professional classes, and the daughters of Chavez, who have the heart of a woman weathered in the fight for long-awaited liberty for Latin Americans. Today we feel stronger and we are joyed for the victory of those that live in the Fatherland.

March forward comrades for we are behind you with the force of thousands of generations that follow the Eternal Commander. Let us know what you need and we are ready for your orders Commander Chavez.

On behalf of the colective:
